

Macurco™ WHK-1 Weatherproof Housing Kit

Installation Instructions for the Macurco™ WHK-1 Weatherproof Housing Kit

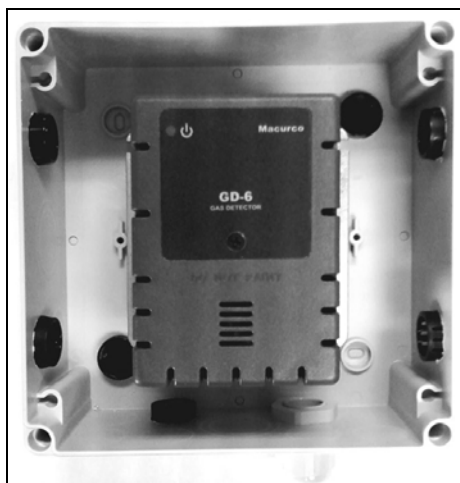

The WHK-1 is a weatherproof enclosure that provides means to protect mount all Macurco standard 4x4 mount gas detectors. By weatherproofing a gas detector, the unit is able to monitor gas concentrations while being protected from debris and indirect spray.

Please refer to the specific detector User Instructions for installation information and warnings

Assembly Instructions

1. Remove clear cover from the enclosure by removing the 4 screws and remove the contents.
2. Place each of the 4 mounting screws in one of the shouldered holes at the corners of the enclosure base.
3. Place the enclosure onto the wall to test for proper alignment. Place the unit against the wall in its intended position.
4. Fasten the enclosure to the wall by installing the 4 mounting screws.
5. Run the wiring through the strain relief. Connect the wiring according to the instructions provided for the detector.
6. Install the gas detector onto the top of the 4 standoffs. Secure it in place using the 4 remaining machine screws.

7. Twist the outer cap of the strain relief clockwise to compress the gasket material around the wiring.

8. Replace the cover and tighten the cover screws.

Maintenance

The Macurco WHK-1 does not require regular maintenance. Please refer to the specific detector User Instructions for maintenance requirements, installation information and warnings. All service and repair of products manufactured by Macurco are to be performed at the Repair & Service Center. Macurco does not sanction any third-party repair facilities.
